RESOLUTION NO. 2012-11

A RESOLUTION OF THE ALBANY CITY COUNCIL IN SUPPORT OF PROPOSITION 29 - THE CALIFORNIA CANCER RESEARCH ACT OF 2012

WHEREAS, the California Cancer Research Act is a state ballot measure which if passed by voters in June 2012 would save lives by preventing 104,000 premature smoking-caused deaths; and

WHEREAS, more than 332,000 California high school students are current smokers, more than 34,000 California youth start smoking every year and 3,383,000 California adults are current smokers; and

WHEREAS, the California Cancer Research Act would increase the state's tobacco tax by \$1 per pack and according to the Campaign for Tobacco-Free Kids, the \$1 tax increase alone would prevent 228,000 children from becoming smokers in adulthood and more than 118,000 adult smokers in California would quit smoking; and

WHEREAS, the tobacco industry will spend millions to stop the California Cancer Research Act because they know it will stop hundreds of thousands from smoking; and

WHEREAS, the California Cancer Research Act would provide nearly \$600 million annually to fund research and make advances in the prevention, detection, treatment, causes and cures for cancer, lung disease, heart disease and stroke, and other tobacco-related illnesses; and

1 **WHEREAS**, the California Cancer Research Act would provide more than \$156
2 million annually to the state's existing tobacco control programs to prevent and reduce
3 the use of tobacco, including school based programs to reduce youth smoking; and
4

5 **WHEREAS**, the Legislative Analyst Office analysis of the California Cancer
6 Research Act determined that local governments would likely experience an annual
7 increase in sales tax revenues of approximately \$10 million; and
8

9 **WHEREAS**, by providing the funding we need to keep California's anti-
10 smoking programs strong, we can keep our kids from smoking and give smokers the help
11 they need to quit; and
12

13 **WHEREAS**, the California Cancer Research Act would provide \$23 million
14 annually for law enforcement efforts to reduce illegal sales of tobacco products to
15 minors, and other anti-tobacco law enforcement; and
16

17 **WHEREAS**, the California Cancer Research Act will result in \$5.1 billion in
18 long-term health savings from reduced smoking; and
19

20 **WHEREAS**, cigarette smoking and other uses of tobacco remain the leading
21 causes of cancer, heart disease and stroke, and lung disease in California; and
22

23 **WHEREAS**, 36,687 adults die annually from smoking in California;
24

25 **NOW THEREFORE, BE IT RESOLVED**, that the Albany City Council does
26 hereby support the California Cancer Research Act of 2012, which will reduce smoking,
27 especially among children and fund critical research to prevent and treat cancer, heart
28 disease and stroke, lung disease and other tobacco-related illnesses.
