

# CONSTRUCTION UPDATE

## Memorial Park Improvements

Funded by Albany Measure F

UPDATE: July 19, 2007

Project Description: The renovation of Memorial Park will refurbish the picnic area, new landscaping and trees, perimeter sidewalk improvements, drainage, irrigation system and turf improvements on the north side of the park, and other public amenities. The City's contractor is Hanford ARC Construction.

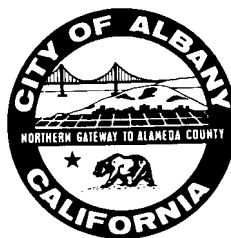

Schedule: The project began in April, 2007, and is anticipated to last five months. Field improvements began at the close of the school year, and are scheduled for completion in September to coincide with the reopening of school. The baseball field is currently fully under construction and work is progressing on schedule. The other improvements, including grading, drainage and walkways are nearly completed which will allow the construction of the decorative features of the renovation to begin.

Impacts to Use of the Park: The children's play areas, sandbox areas, tennis courts and front lawn on Portland will remain accessible for public use during construction. The remainder of the park, from the barbeque area to Thousand Oaks boulevard, including the entire field, will be fenced off. For your safety, please do not enter the fenced off work areas.

Other: Heavy equipment will be mobilized during the construction process. In order to facilitate construction, parking will be periodically reserved for heavy equipment. Street parking is still available but some spaces will be reserved for construction equipment. Please do not park where the temporary NO PARKING signs are placed.

Contacts: Project Engineer Greg Jacobs at (510) 918-2322 or Scott Jacobs at (510) 417-0037. For general questions, contact the City of Albany Public Works Department at 524-9543. After regular working hours, contact the Albany Police at 525-7300.

**We appreciate your cooperation!**
