Request for Proposals (RFP)
City of Albany, CA

Landscape Design Services
Ohlone Greenway

Issue Date: September 15, 2015

Deadline for Submissions: October 19, 2015 (4:00 PM)
BACKGROUND

The Ohlone Greenway is a bicycle and pedestrian path that runs directly beneath elevated BART tracks beginning at Ohlone Park in Berkeley and continuing through Albany, El Cerrito and Richmond. The path is not only a highly used commuting corridor it is a recreation destination and urban trail that weaves together a number of parks and green spaces. BART recently completed a seismic upgrade to the tracks. The work that was performed to upgrade the tracks caused heavy damage to the landscaping and hardscape along the Ohlone Greenway. BART worked with Cities to repair and improve the damaged areas. As a result of this work, Albany’s section of the Greenway now has a bicycle and pedestrian path, new lighting system, street tree demonstration areas and improved landscaping.

At the time of the BART project and through the planning process for improvements, the Community requested additional elements to be included on the Ohlone Greenway, but due to lack of funding only the items listed above were included in the plan. Items requested by the Community include a modern fitness trail, fruit and nut trees, bocce courts, improved seating areas, public posting spots, public art, landscape improvements and interpretive signage.

QUALIFICATIONS

Through this Request for Proposals (RFP), the City of Albany is seeking proposals from qualified Landscape Design firms to develop a detailed concept plan for improvements and amenities of Albany’s 8.89 acre portion of the Ohlone Greenway. The proposals should clearly demonstrate qualifications, experience, approach to landscape architecture design, specifications and estimates.

The preferred consultant will have extensive experience planning and designing urban, multi-use trails and must demonstrate an understanding of the recreational, non-motorized transportation, environmental and urban design opportunities provided by the Ohlone Greenway as well as time and financial constraints. The City of Albany intends to pursue an expeditious scoping, design, and implementation schedule to best take advantage of available funds, and thus is seeking innovative, cost-effective solutions for the project.

The City of Albany intends to compare and evaluate all qualifying submittals and select the most qualified firm based on proposal content, responsiveness and price.

This is a Request for Proposals only and should not be interpreted as a solicitation for services or as a contract for services. Submittals should be comprehensive, concise, and directly responsive to the goals and format as outlined in this RFP.
**ADDITIONAL INFORMATION**

This project is funded with Measure WW, the Regional Open Space, Wildlife, Shoreline and Parks Bond Extension approved by voters in November 2008 for local parks and recreation projects. The East Bay Regional Park District is responsible for the oversight and administration of the funds.

The project budget is $100,000.

Construction management assistance to the City may be requested as an additional service.
