Attachment A: City Council Priorities – Fiscal Years 2017-18 and 2018-19 .................... 6
The broad policy goals and their more specific objectives and implementation action items are based on an overarching statement of the character of the community (vision) and how that character is achieved by the City organization (mission). The following statements are the foundation for the 2017 Strategic Plan Update.

**Vision Statement**

The City of Albany is environmentally and fiscally strong, champions a healthy local economy, fosters safe, diverse and engaged neighborhoods, and treasures its unique waterfront.

**Mission Statement**

The City of Albany is dedicated to maintaining its small town ambience, responding to the needs of a diverse community, and providing a safe, healthy, and sustainable environment.
2013 Strategic Plan

In 2013 the City Council conducted a strategic planning process to identify key issues, develop Council direction, establish priorities, and set goals and objectives to best focus the City’s limited resources and capacity. The planning process resulted in identification of four major themes for An Even Better Albany: Foster Community Climate Action, Engage our Diverse Community, Maximize Park and Open Space, and Promote Vital and Inviting Business Areas.

The strategic planning process included:
- Retaining a consultant versed in strategic planning;
- Conducting interviews with each Council member;
- Holding a strategic planning workshop with City staff;
- Holding a strategic planning workshop with the City Council, including staff and community participation;
- Convening a follow-up session with City staff to further refine themes, identify goals and metrics to accomplish themes; and
- Council review and approval of the strategic plan themes, goals and metrics along with developing a “scorecard” to track progress towards achieving goals.

The product of this effort was a Strategic Plan that informed the City’s Operating and Capital Improvement Budgets, communicated the City Council’s priorities to the community, and assisted staff with resource allocation.
2015 Strategic Plan Update

Given the major planning work conducted in 2013, and that the themes and goals identified at that time remained relevant, the Council was tasked with updating the 2013 Strategic Plan and reviewing the scorecard.

The strategic planning update process consisted of the following components:

- Retaining a consultant versed in strategic planning and facilitation;
- Holding interviews with each Council member to review the existing strategic plan’s themes, goals, metrics, and scorecard and discuss updates;
- Holding a strategic planning update study session on January 5, 2015 with the City Council;
- Having staff refine themes, goals and metrics to accomplish themes; and
- Having City Council approve updated scorecard.

As part of the City Council’s discussion regarding the strategic plan update, several policy items were identified that are inherently overlapping and respond to major needs identified in the City. These items include housing, parking and transportation safety. The 2015 Strategic Plan discussed how these policy items were addressed by various action items (metrics) within the four overall goals (themes) identified in the original 2013 Strategic Plan. The policy items of housing, parking and transportation safety were not however identified as separate additional goals.

To ensure the strategic plan remained a priority, staff reported to the City Council on the implementation progress three times a year in the Fall, Spring and Summer utilizing the strategic plan scorecard.

2017 Strategic Plan Update

In keeping with the timing of updating the Strategic Plan every two years, the Council undertook a 2017 update using a similar process as follows:

- Review of Capital Improvement Program progress by City Council on December 19, 2016;
- Review of updated strategic plan scorecard by City Council on January 17, 2017;
- Retain a consultant versed in strategic planning and facilitation;
- Hold interviews with each Council member to review the existing strategic plan’s themes, goals, metrics, and scorecard and discuss updates; and
• Convene City Council strategic plan update study session on January 23, 2017.

As part of the 2017 Strategic Plan update, the policy areas of housing, parking and transportation were identified as separate objectives within an expanded new goal of Foster a Healthy and Sustainable Urban Village, resulting in a total of five goals. Each existing goal was reviewed for its continued relevancy, and new or revised objectives and action items were identified for each goal. These updated policies are set forth in the following narrative, and are summarized in Attachment A. The attachment also sets forth implementation timing and the responsible department.
Conclusion

The City of Albany has made strong progress developing and implementing policies that sustain and enhance the livability of the community. The Strategic Plan structure provides the City Council, staff, and the community the opportunity to compare the goals with one another and to understand the breadth of the City’s mission.

This update of the Strategic Plan will inform the City’s next operating and capital improvement budgets, which will match available staff and financial resources to the goals and objectives. This plan will continue to be a living document through the periodic review of implementation status using the scorecard set forth in Attachment A.
## 1. Foster a Healthy and Sustainable Urban Village

### 1.1. Advance climate action
