RESOLUTION NO. 2012-5

A RESOLUTION OF THE ALBANY CITY COUNCIL APPROVING THE
UPPER SANITARY SEWER LATERAL COMPLIANCE PLAN, OCTOBER 2011
REVISION, PURSUANT TO CHAPTER XV OF THE ALBANY MUNICIPAL
CODE

WHEREAS, the City of Albany has been rehabilitating and replacing the
publicly owned portion of its sanitary sewer collection system pursuant to an
Infiltration/Inflow Correction Program (I/ICP) negotiated with the State Water Board
since the early 1980’s; and

WHEREAS, in 1993 the City implemented a program to address the
rehabilitation of upper sewer laterals, requiring rehabilitation at the point of sale or as a
condition of the issuance of a building permit exceeding five (5%) percent of the existing
value of the structure for residential properties within the City; and

WHEREAS, the City’s Upper Sanitary Sewer Lateral Compliance Plan, adopted
January 10, 1994, established the policies and procedures for implementing the
rehabilitation of upper sanitary sewer laterals; and

WHEREAS, in 2009 the United States Environmental Protection Agency
(EPA) issued the City an Administrative Order for Compliance (AO) to further develop
and implement programs critical to reducing the amount of stormwater inflow and
infiltration ("I & I") entering the sanitary sewer system; and

WHEREAS, on September 6, 2011, Albany and the other six sewer agencies in
the East Bay entered into Stipulated Order for Preliminary Relief (SO) with EPA and the
State and Regional Water Boards; and
WHEREAS, the SO requires that in order for the City to continue implementing its upper sewer lateral program, EPA must approve the City’s upper sewer lateral program as being no less stringent than the standards and provisions of the Regional Private Sewer Lateral Ordinance, adopted March 26, 2010 by EBMUD under direction from the EPA; and

WHEREAS, City’s Upper Sanitary Sewer Lateral Compliance Plan (Plan) required revision to demonstrate that the provisions of the City’s program are no less stringent than the Regional Private Sewer Lateral Ordinance; and

WHEREAS, the revised Plan continues to require rehabilitation of the upper lateral at the point of sale or as a condition of the issuance of a building permit exceeding five (5%) percent of the existing value of the structure for residential properties within the City; and

WHEREAS, the revised Plan now delineates the duration of an Upper Lateral Compliance Certificate to be twenty (20) years if the upper lateral was completely replaced and seven (7) years if the upper lateral was spot repaired; and

WHEREAS, the revised Plan now bases compliance on the results of an air or water performance test conducted after the upper sewer lateral has been rehabilitated; and

WHEREAS, the revised Plan continues to require rehabilitation of the upper lateral prior to the close of escrow with the option for the property owner to post a bond with the City if the rehabilitation work cannot be performed within this timeline and the revised Plan increases the dollar value of the bond to be consistent with current construction costs; and

WHEREAS, the revised Plan now will require property owners of multi-unit, office and commercial buildings to demonstrate their upper lateral is in compliance with City standards within seven years from the date of adoption of the revised Plan with recertification of the upper laterals occurring in twenty (20) year intervals thereafter; and

WHEREAS, the EPA has reviewed the provisions of the revised Plan and is prepared to approve the City’s No Less Stringent Application upon City Council adoption of the revised Plan.

NOW THEREFORE, BE IT RESOLVED, that the Albany City Council hereby approves the Upper Sanitary Sewer Lateral Compliance Plan, October 2011 revision, pursuant to Chapter XV of the Albany Municipal Code.
