DEMOLITION NOTES

A. Contractor shall carefully check the stability of all elements of the building before doing any work on or demolition to the existing structure. The contractor shall brace or strengthen any portions of the structure that may be weakened by demolition or construction activities. The contractor shall be solely responsible for jobsite safety and preservation of existing construction not stated for demolition.

B. All demolition and removal work shall conform to all applicable codes and regulations, including 3.6.0, Chapter 44, and A.N.S.I. A10.6-1983 "Safety Requirements for Demolition." The contractor shall bear sole responsibility for identifying, testing, and disposing of any hazardous materials encountered in the demolition process in accordance with all applicable codes, ordinances, and regulations.

C. Contractor shall notify architect immediately of any discrepancies between existing conditions and construction documents.
