NOW, THEREFORE, THE ALBANY CITY COUNCIL ORDAINS AS FOLLOWS:

SECTION 1: CHAPTER 20.24 “DEVELOPMENT STANDARDS” OF THE ALBANY MUNICIPAL CODE, SECTION 20.24.050 TITLED “FLOOR AREA RATIOS” IS HEREBY AMENDED AS FOLLOWS:

20.24.050 Floor-Area Ratios.

A. General. For buildings other than single-family residences, Floor Area Ratio (FAR) shall be calculated according to the definition provided in the Definitions section (20.08.020) of this Chapter. Permitted ratios in the various zoning districts shall be as shown in the Table of Site Regulations by District, Section 20.24.020.

B. Single-Family Residences. The following standards shall apply both to new construction on single-family lots, and to additions to existing single-family units. It is the intent of the City that all such construction be compatible with neighboring residential development. A ratio of the gross square footage of structures on a site to the land area of the site shall be employed by the Planning and Zoning Commission as a means of evaluating the bulk of any proposed residential building.
1. For purposes of this section, Floor Area Ratio (FAR) shall be calculated as the total gross square footage of the building divided by the total land area of the site. The calculation of gross square footage shall include consideration of the following factors where applicable:

   a. Gross square footage shall include all covered space located on the site.

   b. Any covered parking area which is enclosed by two (2) or more walls, whether attached to or detached from the main dwelling structure, shall be included in the calculation of gross square footage, with the exception that one (1) such enclosed parking space, with a maximum interior area equal to the minimum requirement for a single enclosed parking space, as stated in subsection 20.28.50.A.1.a., may be excluded from said calculation.

   c. Any covered area on or below the first or main floor, shall be considered a story and shall be calculated in the floor-area ratio if the average height of the perimeter is greater than five (5) feet, except a single parking area may be excluded as provided in paragraph B.1.b. above. Measurement of height shall be taken from the lower of natural or finished existing grade conditions at the time the application is filed from the exterior to the top of existing finished floor of the first, main or story above. For the purposes of calculating Floor Area
Ratio pursuant to this Section, the average perimeter height shall not be altered to achieve a height less than 5 ft.

d. Decks, patios or other usable open areas shall be excluded from calculation of gross square footage, except where such element is enclosed on three (3) or more sides. (Two (2) walls and a solid roof shall be counted as three (3) sides.)

e. Any interior space with a ceiling height equaling two (2) stories shall be doubled for purposes of calculating gross square footage. Exceptions may be made for stairwells with no habitable space above or below the stairs, and for a maximum of sixty (60) square feet of additional space, such as in an entry-foyer, an internal atrium, or a study loft.

e. The total exterior gross square footage of the footprint above and below the stairs shall be calculated for the purposes of FAR. Deductions shall be made for the actual stairwell footprint, up to a 60 sq. ft. maximum deduction from the overall FAR.

f. Any attic space having a floor area of at least one hundred fifty (150) square feet with a ceiling height of seven (7) feet six (6) inches or more shall be calculated as gross square footage.
SECTION 2: CHAPTER 20.100 OF THE ALBANY MUNICIPAL CODE, SECTION 20.100.010 TITLED "COMMON PERMIT PROCEDURES" IS HEREBY AMENDED AS FOLLOWS:

20.100.010 Common Permit Procedures.

E. Notice of Public Hearings. The Community Development Department shall provide notice of any public hearings required as part of the application process.

a. Posting. The applicant shall post notice in a conspicuous location on the project site regarding a scheduled design review meeting at least ten (10) calendar days prior to the meeting. Posting shall be consistent with procedures established by the Community Development Department.

b. Mailing. The Community Development Department shall mail such notice to all owners and occupants of any property, any portion of which lies within one three hundred (100) (300) feet of the external boundaries of the project site, at least (10) calendar days prior to the meeting.

c. Story Poles, R-1 Zoning District. For new residential construction and exterior alterations that increase the height of a single-family building and are subject to design review, an applicant is required to erect at least two "story
poles”, a temporary construction for the purpose of visually displaying the outer limits, including the height, of the proposed structural alterations. These poles shall be erected at least ten (10) days prior to the design review meeting, and shall be maintained in place through the date of the meeting.
