NOTE: ARCHITECT TO REVIEW BEFORE PLACING ORDER.

1. **REFERENCE STANDARDS:**

2. **INSTALLATION:**
   Install per manufacturer's instructions. Coordinate window and screen installation with security installation.

3. **MATERIALS:**
   Marvin Ultrex Fiberglass windows. Standard color, verify with owner.

4. **GLAZING:**
   Windows shall be double glazed, low e².

5. **EXTERIOR CASING:**
   Match existing house. Head and sill casings to miter at corner.

6. **FLASHING:**
   G.S.M. drip cap flashing at all window and door heads, typical.
   Rough opening penetrations to be flashed with self-adhering, butyl-based flashing or flashing per manufacturer's instructions. Use a sealant compatible with ALL materials it comes in contact with.
   Typically install sill flashing first, jamb flashing next then head flashing followed by shingled building paper, (installed from the bottom up). Be sure that the building paper tucks under the sill strip flashing with the next course of building paper over the jamb strip flashings. Assembly shall insure that all exterior openings exposed to the weather shall be flashed in such a manner as to make them waterproof (UBC, Sec. 1707(b)).

TEMPERED AND EGRESS LOCATIONS TO BE VERIFIED BY THE CONTRACTOR.

### NOTE: ARCHITECT TO REVIEW BEFORE PLACING ORDER.

1. **REFERENCE STANDARDS:**
   National Woodwork Manufacturers Association (NWMA) "1.S.1-78" Woodwork Institute of California (W.I.C) "Manual of Millwork" and Underwrites Laboratories (U.L.) "Building Materials Directory"

2. **MATERIALS:**
   Marvin Ultrex fiberglass or equal exterior door. Interior door to be Trustile MDF primed for paint.

3. **WEATHER-STRIPPING:**
   Weather stripping by Pemko, or approved equal.

4. **FLASHING:**
   Install per manufacturer's instructions.

   **SILL PAN:**
   All exterior doors to have sill pan of Vycor V-40 or Ice & Watershield or Prefabricated of 24GA G.S.M. Refer to specifications and detail drawings.

   **ROUGH OPENING:**
   Self-adhering, butyl-based flashing or flashing per manufacturer's instructions at rough opening all around. Use sealant compatible with ALL materials it comes in contact with.

   **HEAD FLASHING:**
   GSM drip cap flashing at all window and door heads, typical.

5. **OPERATION:**
   Doors shall operate freely but not loosely and shall be free from rattling in the closed position. Door clearance at head and jambs shall be 3/32", plus or minus 1/32".

6. **HARDWARE:**
   Key all exterior doors alike. Verify interior hardware with owner. Finish to be selected by owner. Pocket Door Track: Johnson #1500-PPK3 track kit.
