ORDINANCE NO. 2019-11

AN ORDINANCE OF THE ALBANY CITY COUNCIL AMENDING CHAPTER XI
FIRE PREVENTION AND CHAPTER XII, BUILDING AND HOUSING, OF THE
MUNICIPAL CODE RELATED THE ADOPTION AND LOCAL AMENDMENTS TO
THE OF THE 2019 CALIFORNIA BUILDING STANDARDS CODE

WHEREAS, the California Health and Safety Code requires the City of Albany to
enforce the California Building Standards Code as adopted and published by the California
Building Standards Commission; and

WHEREAS, the City of Albany may adopt administrative provisions as appropriate to
the City; and

WHEREAS, the State of California allows local jurisdictions to amend the California
Building Standards Code where necessary to reasonably address adverse local conditions related
to climate, geology, and/or topography, and thus the City Council makes the following findings
regarding local conditions:

a) the City of Albany is a dense built-out community with older commercial and
residential structures on relatively small lots; and

b) the City of Albany is located near several active earthquake faults including the San
Andreas, Hayward and Calaveras faults; and

c) moderate to highly expansive soils are present throughout most of the built-out
portions of the City of Albany; and

d) the waterfront portion of the City of Albany includes poorly compacted artificial fill; and
WHEREAS, the proposed ordinance does not involve a commitment to or require a significant physical change in future projects, and thus is not a “project” as defined by California Environmental Quality Act (CEQA) Guidelines Section 15378; and

WHEREAS, on December 2, 2019, the Albany City Council held a duly noticed public hearing on the draft ordinance to amend Chapter 11 and Chapter 12 of the Albany Municipal Code adopting the California Building Standards Code.

NOW, THEREFORE, THE ALBANY CITY COUNCIL ORDAINS AS FOLLOWS:

SECTION 1: CHAPTER 12 OF THE ALBANY MUNICIPAL CODE, SECTION 12-6.1 TITLED “ADOPTION OF BUILDING CODES” IS HEREBY AMENDED AS FOLLOWS:

4. The following sections are adopted for the administration of the California Building Standards Code in the City of Albany:

(a) California Building Code Chapter 1, Division II
(b) California Building Code, Appendix B Board of Appeals
(cb) California Building Code, Appendix H Signs
(d) California Building Code, Appendix I Patio Covers
(ee) California Building Code, Appendix J Grading
(fd) California Residential Code Chapter 1, Division II
(e) California Residential Code, Appendix E Manufactured Housing
(gf) California Residential Code, Appendix H Patio Covers
(hg) California Residential Code, Appendix J Existing Buildings and Structures
(i) California Residential Code, Appendix K Sound Transmission
(j) California Residential Code, Appendix R Light Straw-Clay Construction
(k) California Residential Code, Appendix K Tiny Houses
(l) California Residential Code, Appendix S Light Strawbale Construction

Fees shall be established by resolution of the City Council.

(l) California Plumbing Code Chapter 1, Division II, except Section 104.5 (Fees).
Fees shall be established by resolution of the City Council.

(m) California Green Building Code Mandatory measures. To address local environmental conditions, the City Council may establish, by resolution and periodically review and update, more stringent voluntary measures contained in the California Green Building Standards Code appendices.

5. In the event of any differences between the California Building Code (as amended herein), the California Residential (as amended herein), and the California Fire Code (as amended herein), the most restrictive requirements shall prevail.

SECTION 2: CHAPTER 12 OF THE ALBANY MUNICIPAL CODE, SECTION 12-6.2 TITLED “RESERVED” IS HEREBY AMENDED AS FOLLOWS:

Section 12-6.2 Electric Vehicle Charging Stations

a. The Building Official shall create and maintain an expedited, streamlined permitting process for electric vehicle charging stations consistent with the requirements of California Government Code Section 65850.7.
SECTION 3: CHAPTER 11 OF THE ALBANY MUNICIPAL CODE, SECTION 11-1
TITLED “RESERVED” IS HEREBY AMENDED AS FOLLOWS:

11-1 FIRE CODE.

Except as otherwise provided for in the Chapter by specific provision, the minimum standards, provisions, and requirements for the safe construction and maintenance of property, facilities, conditions, materials, equipment, fire prevention and alarms systems, and the general supervision thereof for the purpose of combating and control of fire and fire hazard and abatement same within the corporate limits of the City shall be in accordance with the provisions and in the manner prescribed by the California Fire Code, 2019 edition (CFC) in its entirety, as published by the International Code Council and including Appendices B, BB, C, CC, D, E, F, G, H, I, K, N, O all as compiled, adopted, and subsequently amended by the International Code Council, California State Fire Marshal's Office, California Building Standards Commission, or City of Albany.

SECTION 4: CHAPTER 11 OF THE ALBANY MUNICIPAL CODE, SECTION 11-2
TITLED “FIRE CODE” IS HEREBY AMENDED AS FOLLOWS:

11-2 PURPOSE.

The Fire Code shall regulate and govern the safeguards of life and property from fire and explosion hazards arising from the storage, handling and use of hazardous substances, materials and devices, and from conditions hazardous to life or property in the occupancy of buildings and premises as herein provided; providing for the issuance of permits and collection of fees therefor; and each and all of the regulations, provisions, penalties, conditions and terms of said Fire Code,
SECTION 5: CHAPTER 11 OF THE ALBANY MUNICIPAL CODE, SECTION 11-3
TITLED “RESERVED” IS HEREBY AMENDED AS FOLLOWS:

11-3 AUTHORITY.

The Fire Chief or Agent of the Fire Chief may order, in writing, the correction, elimination or abatement of any fire or life hazard or any violation of this Ordinance including the code and standards incorporated by reference herein when the correction, elimination or abatement is necessary for the prevention or suppression of fires or conflagrations or for the protection or preservation of life or property against the hazards of fire or conflagration.

SECTION 6: CHAPTER 11 OF THE ALBANY MUNICIPAL CODE, SECTION 11-3
TITLED “RESERVED” IS HEREBY AMENDED AS FOLLOWS:

11-4 DEFINITIONS (A-Z).

Building shall mean any structure used or intended for supporting or sheltering any use or occupancy. Building is also any structure as to which state agencies have regulatory power, and housing or enclosure of persons, animals, chattels, equipment or property of any kind.

Building, existing shall mean a building legally erected prior to the adoption of this code, or one (1) for which a legal building permit was issued for the construction or legalization thereof prior to the adoption of this Code.

Building, new shall mean a building for which a legal building permit is issued for the construction or legalization thereof after the adoption of this code.

Building official shall mean the designated staff person authorized and responsible for implementing the California Building Code.

Central alarm station shall mean a publicly or privately operated alarm receiving center that is constantly attended by appropriately trained staff.

Dwelling unit shall mean any building or portion thereof which contains living facilities, including provisions for sleeping, eating, cooking and sanitation, as required by the California Residential Code for not more than one (1) family.

Exterior wall shall mean any wall or element of a wall, or any member or group of members, which defines the exterior boundaries or courts of a building and which has a slope of sixty (60) degrees or greater from the horizontal plane.

Fire alarm shall mean any device, control or circuit designed to produce an alarm signal in the event of fire or system activation, together with the energy necessary to sound an alarm, electrically supervise the system where required, and activate the alarm bells, trouble bells or trouble signals.

Fire Chief shall mean the Albany Fire Chief.

Fire Department shall mean the emergency services department for the City of Albany.

Floor area shall mean the total horizontal area in square feet on each floor within and including the exterior walls of a structure. Attached garages are included as part of the existing floor area.
**Hydrant** shall mean a valve connection on a water supply/storage system to supply fire apparatus and hoses with water.

**National fire codes** shall mean the most current edition of the National Fire Codes published by the National Fire Protection Association (NFPA).

**Occupancy group classification** shall mean the formal designation of the primary purpose for which a building or part thereof. See 2019 California Building Code Chapter 3 (Occupancy Classification and Use).

**Occupant** shall mean an individual or entity that holds leasing, tenancy, or contractual rights to lawfully occupy space in a building.

**Occupant load** shall mean the number of persons for the means of egress of a building or portion thereof is designed. See 2019 California Building Code Section 1004 (Occupant Load).

**Permanent improvement** shall mean an improvement to property that will remain indefinitely and is now an integral and fixed part of the building or structure. Permanent improvements shall be the responsibility of the property owner.

**Property Owner** shall mean the owner of record as shown on the last equalized assessment roll of the county. For purposes of providing notice to an owner of any action or proceeding under this section, "owner" includes the actual owner of record, or part owner, or such owner's agent, employee or other legal representative.

**Public nuisance** shall mean an activity or condition which, in the opinion of the City, violates a provision of a City Code, or anything which is injurious to health, or safety, or an obstruction to the free use of property, so as to unreasonably interfere with the comfortable enjoyment of life or property by the occupant(s) of adjacent or neighboring property or by any number of persons in
the City irrespective of whether the annoyance or damage inflicted upon individuals is unequal.
See definition Albany Municipal Code Section 18-1.3 (Public Nuisance).

**Remodel, minor** shall mean non-structural repairs or modifications to existing building area that
does not extend the usable life of a building.

**Remodel, substantial** shall mean construction activity in an existing building that results in
building area that is substantially equivalent to new. Determination area of substantial
remodel will be based on modifications to structural components and modification to plumbing,
electrical and mechanical systems that extend the usable life of a building.

**Repair** shall mean reconstruction or renewal of any part of an existing building for the purposes
of maintenance or damage correction.

**SECTION 7: CHAPTER 11 OF THE ALBANY MUNICIPAL CODE, SECTION 11-5**
**TITLED “RESERVED” IS HEREBY AMENDED AS FOLLOWS:**

**11-5 FIRE PREVENTION REQUIREMENTS.**

**A. Development Requirements.** This section shall be applicable whenever any land is
developed or a building is constructed renovated, remodeled, major repair, or tenant
improvement which would require:

1. Provision of a water supply for fire protection;
2. Provision of access for fire apparatus;
3. An occupancy for the storage, handling, or use of any hazardous substance,
material process or device:
4. Occupancies group classification for which a fire department has responsibility for enforcement of laws or ordinances for fire safety or for the preservation of property or lives; or

5. Provisions to control the spread of fire.

B. **Key Boxes.** Where access to or within a structure or an area is restricted because of secured openings or where immediate access is necessary for life-saving or fire-fighting purposes, the Fire Code Official is authorized to require a Knox Rapid Entry System to be installed in an approved location. The Knox Rapid Entry System shall be of an approved type listed in accordance with UL 1037, and shall contain keys to gain necessary access as required by the Fire Code Official. If any of the following items listed (1) thru (7) is located at an occupancy, then a Knox Rapid Entry System shall be required. This shall apply to residential buildings containing three or more units with accessory areas.

1. Fire suppression and standpipe systems. When a building within the City limits is protected by an automatic fire suppression and/or standpipe system, it shall be equipped with a Knox Rapid Entry System, installed at a location approved by the Fire Code Official or designee.

2. Automatic Alarm Systems. When a building within the City limits is protected by an automatic fire suppression and/or standpipe system, it shall be equipped with a Knox Rapid Entry System, installed at a location approved by the Fire Code Official or designee.

3. Multi-family residential structures. Multi-family residential structures comprised of three (3) or more units which access to the building or common areas or mechanical or an electrical room within the building is denied through locked doors.

4. Automatic Gates. When a property is accessed through a gate or cross arm that impedes ingress through required fire lanes by means of a key or swipe card, it shall be equipped with a key switch to be installed at a location approved by the Fire Code Official or designee.

5. Security Padlock. When a property is protected by a locked fence or gate and where immediate access to the property is necessary for life saving and firefighting purposes, it
shall be equipped with a security padlock to be installed at a location approved by the Fire Code Official or designee. It shall then be the responsibility of the Responsible Party to see that the fence or gate is secured properly so that the security padlock is accessible.

6. Construction Sites. When a construction site is to be secured by a locked fence or gate during the duration of construction or until said fence or gate is removed. It shall then be the responsibility of the construction company to see that the fence or gate is secured properly so that the security padlock is accessible.

7. Security of Fire Department Connections (FDC). When a building is protected by an automatic sprinkler and/or standpipe system and the fire department connection is exposed to vandalism, the Fire Code Official or designee shall require that a security cap be installed.

C. Knox Rapid Entry System

1. Knox Rapid Entry System storage cabinet contents. Any facility, firm, or corporation that handles, uses, or stores hazardous material and or total aggregate is more than 55 gallons of liquid, 500 pounds of solid, or 200 cubic feet of gas, shall have a Knox Box HazMat Cabinet for Albany Fire Department use. A weatherproof cabinet shall be installed when appropriate. Exception: not required for Underground Storage Tanks (UST). The cabinet shall contain a binder for the hazmat Knox Box the following items:

a. List of responsible parties phone numbers (i.e. plant manager, owner, all principal employees, management types, and major chemical manufacturers).

b. An aerial pre-plan of the facility, to include room numbering, extinguishing systems (outside stem and yoke (OSY), post indicator valves (PIV), fire department connections (FDC), drains, secondary containment, ventilation systems, and hydrant locations.

c. Alphabetical list of chemicals, room number location, and approximate quantity and strength (i.e. 50%, 60%, 85%, etc.).

d. Safety Data Sheet (SDS) of all chemicals in alphabetical order.
2. Keys in hazmat Knox Box:
   a. Keys to all locked doors with plastic identification tags corresponding to complex aerial pre-plan.

3. Location of Hazmat Knox Box:
   a. The Knox Box location will be determined by the Fire Code Official or designee.

4. Knox Rapid Entry System key box contents. The Key boxes shall contain, but not be limited to the following items as designated by the Fire Code Official or designee.

   The Key Box shall contain the following items:
   a. Labeled keys to locked points of egress, whether in interior or exterior of such buildings.
   b. Labeled Keys to the locked mechanical rooms.
   c. Labeled keys to any fence or secured areas
   d. Labeled keys to any other areas that may be required by the Fire Code Official or designee.
   e. A card containing the emergency contact people and phone numbers for each occupancy.
   g. Aerial pre-plan.

5. Alert Decals. Alert decals approved by the Fire Code Official or designee, to alert fire companies of the presence of security features covered by this ordinance, will be displayed on any outside doors or windows as designated by the Fire Code Official or designee.
6. **Knox Rapid Entry System** maintenance. The operator of the building shall immediately notify the Fire Code Official or designee and provide the new key when a lock is changed or rekeyed. The key to such lock shall be secured in the Knox Rapid Entry.

D. **Change in occupancy classification.** No change shall be made in the use or occupancy of any building unless such building is made to comply with the requirements of the California Fire Code for the use or occupancy. Changes in use or occupancy in a building or portion thereof shall be such that the existing building is no less complying with the provisions of this code than the existing building or structure was prior to the change. Subject to the approval of the Fire Chief, the use or occupancy of existing buildings shall be permitted to be changed and the building is allowed to be occupied for purposes in other groups without conforming to all of the requirements of this code for those groups, provided the new or proposed use is less hazardous, based on life and fire risk, than the existing use.

**SECTION 8: CHAPTER 11 OF THE ALBANY MUNICIPAL CODE, SECTION 11-6 IS HEREBY CREATED AS FOLLOWS:**

**11-6 AUTOMATIC FIRE SPRINKLER SYSTEMS.**

11-6.1 California Fire Code Section 903 (Automatic Sprinkler Systems) is modified as follows:

A. **Group A-1.** An automatic sprinkler system installed in accordance with CFC Section 903.3 (Installation Requirements) shall be provided for Group A-1 occupancies where the fire area exceeds 2,500 square feet

B. **Group A-2.** An automatic sprinkler system installed in accordance with CFC Section 903.3 (Installation Requirements) shall be provided for fire areas containing Group A-s occupancies and intervening floors of the building where one of the following conditions exists:

1. The fire area exceeds 2,500 square feet
2. The structure exceeds 2,500 square feet, contains more than one fire area containing a Group A-2 occupancy, and is separated into two or more buildings by fire walls of less than 4-hour fire resistance rating without openings.

C. Group A-3. An automatic sprinkler system installed in accordance with CFC Section 903.3 (Installation Requirements) shall be provided for Group A-3 occupancies where the fire area exceeds 2,500 square feet.

D. Group A-4. An automatic sprinkler system installed in accordance with CFC Section 903.3 (Installation Requirements) shall be provided for Group A-4 occupancies where the fire area exceeds 2,500 square feet.

E. Group E. Except as provided for in CFC Section 903.2.19 for a new public school campus an automatic sprinkler system shall be provided for Group E occupancies as follows:
   1. Throughout all Group E fire areas greater than 2,500 square feet in area.
   2. Throughout every portion of educational buildings below the lowest level of exit discharge serving that portion of the building. Exception: In buildings where every classroom has not fewer than one exterior exit door at ground level, an automatic sprinkler system is not required in any area below the lowest level of exit discharge serving that area.

F. Group F-1. An automatic sprinkler system installed in accordance with CFC Section 903.3 (Installation Requirements) shall be provided throughout all buildings containing a Group F-1 occupancy where one of the following conditions exists:
   1. A Group F-1 fire area exceeds 2,500 square feet.
   2. The combined area of all Group F-1 fire areas on all floors, including any mezzanines, exceeds 2,500 square feet.
G. **Group B and M.** An automatic sprinkler system installed in accordance with CFC Section 903.3 (Installation Requirements) shall be provided throughout buildings containing a Group B and M occupancies where one of the following conditions exists:

1. A Group B or M fire area exceeds 2,500 square feet.
2. A Group B or M fire area is located more than three stories above grade plane.
3. The combined area of all Group B and M fire areas on all floors, including any mezzanines, exceeds 2,500 square feet.
4. A Group M occupancy is used for the display and sale of upholstered furniture.

### 11-6.2 Residential Sprinklers

**A. Damaged Residential Structures.** An automatic sprinkler system installed in accordance with CFC Section 903.3 (Installation Requirements) shall be provided throughout all Group R occupancies, including manufactured and mobile homes, and when fire, earthquake, or other disaster damages or destroys 50% or more of an existing building, the entire building shall be required to be protected by an automatic fire sprinkler system.

**B. Substantial Addition or Remodel for Group R-3.** An automatic sprinkler system installed in accordance with CFC Section 903.3 (Installation Requirements) shall be provided as a requirement of a construction permit throughout all existing R-3 occupancy group classifications when either:

1. The cumulative aggregate of the area of new construction in the structure, plus area of substantial remodel of the structure, since November 7, 1996, exceeds 50% of the floor area of the structure that was existing on November 7, 1996 (attached garages are included as part of the existing floor area), or
2. The aggregate of the area of new construction in the structure, plus area of substantial remodel of the structure exceeds 1,500 square feet.
C. **Group S-1.** An automatic sprinkler system shall be provided in accordance with CFC Section 903.3 (Installation Requirements) throughout all buildings containing a Group S-1 occupancy where one of the following conditions exists:

1. A Group S-1 fire area exceeds 2,500 square feet.
2. A Group S-1 fire area is located more than three stories above grade plane.
3. The combined area of all Group S-1 fire areas on all floors, including any mezzanines, exceeds 2,500 square feet.

D. **Repair Garages.** An automatic sprinkler system shall be provided in accordance with CFC Section 903.3 (Installation Requirements) throughout all buildings used as repair garages in accordance with California Building Code Section 406.8 (Repair Garages) as shown:

1. Buildings having two or more stories above grade plane, including basements, with a fire area containing a repair garage exceeding 2,500 square feet.
2. Buildings no more than one story above grade plane, with a fire area containing a repair garage exceeding 2,500 square feet.

E. **Group S-2.** An automatic sprinkler system in accordance with CFC Section 903.3 (Installation Requirements) shall be provided throughout buildings classified as enclosed parking garages in accordance with California Building Code Section 406.6 where the fire area of the enclosed parking garage exceeds 2,500 square feet.

F. **Buildings 35 feet or more in height.** An automatic fire extinguishing system shall be installed in accordance with CFC Section 903.3 (Installation Requirements) in all occupancies regardless of type of construction, floor area, or occupancy load if the building is three stories or more than 35 feet in height measured in accordance with the California Building Code, Chapter 5.
SECTION 9: CHAPTER 11 OF THE ALBANY MUNICIPAL CODE, SECTION 11-7 IS HEREBY CREATED AS follows:

11-7 STANDPIPE SYSTEMS

A. Required Installations. CFC Section 905.3.1 (Height) is amended by adding item #5: Buildings three stories but less than 30 feet in height above the lowest level of fire department vehicle access.

SECTION 10: CHAPTER 11 OF THE ALBANY MUNICIPAL CODE, SECTION 11-8 IS HEREBY CREATED AS follows:

11-8 FIRE ALARMS IN BUILDINGS SUBJECT TO CALIFORNIA FIRE CODE CONSTRUCTION PERMIT

A. Single and multiple-station smoke alarms. In addition to the requirements of CFC Section 907 (Fire Alarm and Detection systems) Listed single and multiple-station smoke alarms shall comply with the following:

1. Any construction that is required to install an additional smoke alarm or smoke detector under the California Fire Code, the California Building Code, NFPA, or other codes or standards adopted by the City of Albany, shall be required to upgrade all required devices in the building to photoelectric-only type devices in all required locations.

2. Any renovation, construction, remodel, major repair, additions, alterations, undergoing reconstruction of any size, occupancy classification, or tenant improvement of existing habitable space shall be required to upgrade all required smoke alarms or smoke detectors in the building to photoelectric-only type devices in all required locations.

3. Property owners are responsible for testing the effectiveness of existing smoke alarms or smoke detectors per manufacturer's instructions. Required smoke alarms or smoke
detectors that are determined to be ineffective shall be replaced with photoelectric-only type
smoke devices.

4. All required smoke alarms and smoke detectors shall be replaced upon the
expiration of the warranty period of the installed device. Replacement devices must be
photoelectric-only type devices.

5. Dual type smoke alarms or smoke detectors are prohibited in required locations.

6. Nothing in this section shall prohibit or discourage the additional use of ionization
or dual type alarms in additional locations where photoelectric smoke detectors are installed.

B. Fire Alarm Monitoring. Fire alarm system required by this chapter, or by the California
Building Code, shall be monitored by a UL-listed Central Station service in accordance with
NFPA 72 and this code. Exception: Monitoring by a UL listed central station is not required for:

1. Single and multiple station smoke alarms required by CFC Section 907.2.10
2. Group I-3 occupancies shall be monitored in accordance with CFC Section
907.2.6.3
3. Residential Day Care Facilities (occupancy load of 14 or less).
4. One, two, and three family dwellings.
5. Residential Care Facilities licensed by the State with an occupant load of 6 or
less.
6. Occupancies with a local fire alarm system that will give an audible and visible
signal at a constantly attended location, as approved by the Fire Code Official.

C. Certification. New fire alarm systems shall be UL-Certified. A Certificate of Completion
and other documentation as listed in NFPA 72 shall be provided for all new fire alarm system
installations. It is the responsibility of the building owner or owner's representative to obtain and
maintain a current and valid Certificate.
D. Posting of Certificate. The UL Certificate shall be posted in a durable transparent cover within 3 feet of the fire alarm control panel within 45 days of the final acceptance test/inspection. Testing reports or a copy shall be retained at same location.

SECTION 11: CHAPTER 11 OF THE ALBANY MUNICIPAL CODE, SECTION 11-9 IS HEREBY CREATED AS FOLLOWS:

11-10 FIRE SAFETY REQUIREMENTS IN EXISTING BUILDINGS.

A. Residential Self-Closing Doors. All residential units in multi-family residential structures containing four units or more shall have self-closing exterior doors.

1. Responsibility. Property owners are responsible for testing and maintaining the effectiveness of self-closing hardware per manufacturer's instructions. Required self-closing hardware that is determined to be ineffective shall be replaced with functioning hardware.

B. Fire Alarm System Requirements.

1. Prior to the sale of any real property, a property owner shall upgrade the smoke alarm/smoke detector system to photoelectric-only type devices.

2. Prior to the issuance of a home occupancy permit, a property owner shall upgrade the smoke alarm/smoke detector system to photoelectric-only type devices.

3. Multi-family residential structures containing three (3) housing units or more are required to maintain photoelectric-only smoke alarm/smoke detector system.

4. Property owners are responsible for testing the effectiveness of existing smoke alarms or smoke detectors per manufacturer's instructions. Required smoke alarms or smoke detectors that are determined to be ineffective shall be replaced with photoelectric-only type smoke devices.
5. All required smoke alarms and smoke detectors shall be replaced upon the expiration of the warranty period of the installed device. Replacement devices must be photoelectric-only type devices.

SECTION 12: CHAPTER 11 OF THE ALBANY MUNICIPAL CODE, SECTION 11-11 IS HEREBY CREATED AS FOLLOWS:

11-11 FAILURE TO COMPLY.

A. Violations. Persons who shall violate a provision of this code or shall fail to comply with any of the requirements thereof or who shall erect, install, alter, repair or do work in violation of the approved construction documents or directive of the Fire Code Official, or of a permit or certificate used under provisions of this code, shall be guilty of a misdemeanor, punishable by the limits set forth in the City of Albany Municipal Code.

B. Failure to comply. Any person who shall continue any work after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition shall be liable to a fine of not less than 500 dollars or not more than 5,000 dollars.

C. Nuisance Alarm Fee. Making false report. Section 401.5 amended to add section 401.5.1 as follows:

D. False/Nuisance alarm fee. A fee may be charged for false/nuisance alarms according to the master fee schedule of the City.

SECTION 13: CHAPTER 11 OF THE ALBANY MUNICIPAL CODE, SECTION 11-12 IS HEREBY CREATED AS FOLLOWS:
11-12 APPEALS.

The Albany Planning & Zoning Commission shall serve as the Local Appeals Board and where referenced in the California Fire Code.

SECTION 14: PUBLICATION AND EFFECTIVE DATE.

This ordinance shall be posted at three public places within the City of Albany and shall become effective thirty days after the date of its posting.

PASSED AND ADOPTED by the City Council of the City of Albany at its meeting on the 20th day of July 2020, by the following vote:

AYES: Council Members Barnes, Maass, McQuaid, Nason and Mayor Pilch
