FOR MEMBER OF THE BOARD OF EDUCATION
MELISSA BOYD

My daughters are the most important people to me, and they attend Albany public schools. I want to use my skills and experience to help our school district thrive.

As a founding member and officer in Marin’s Inclusion, Diversity, Equity and Access (IDEA) Committee, I’ve worked with parents, teachers and administrators to enhance diversity in our curriculum and enrichment activities, improve student access to essential resources, and ensure that our children feel included and affirmed regardless of who they are or how they learn. I am committed to representing the needs of all of our children, while simultaneously listening to and supporting our teachers. We can and must do both.

As a corporate attorney, I have spent my career learning how to analyze complex issues, break apart big problems into more manageable ones, and work in a levelheaded way to reach compromises and find solutions.

Now more than ever we have to work together and hear each other. We have to balance the needs of our children, their parents and our teachers.

I build bridges. I care about our community. And I think I can help.

I ask for your vote.
