Candidate Statement

Veronica Davidson
Occupation: Educator
Age: 35

In this unprecedented time for public education I am committed to supporting our students, teachers, and parents. As a longtime resident of Albany and a teacher at Cornell last year I know the value of our public schools to our community. I am also the parent of two young children, one of whom is a first grader at Cornell Elementary. As a small business owner I am active in our business community and also a business supporter of our schools.

As an educator I am familiar with a range of education policy and the associated challenges. Upholding the level of academic excellence while enriching learning environments and ensuring equity for our diverse students is a top priority.

I will work hard to increase communication and collaboration between board members, teachers, parents, and administrators. We need to come together as a strong team to support our students.

Many teachers have endorsed my candidacy and I respectfully ask for your vote.
