ADDENDUM NO. 1

CITY OF ALBANY

PAVEMENT REHABILITATION PROJECT

For

ADAMS STREET: SOLANO AVE TO BUCHANAN ST

PROJECT NUMBER C20-47

BID OPENING DATE: September 3, 2020

This Addendum forms a part of the Contract Documents and modifies the original Bidding Documents as noted below. Acknowledge receipt of this Addendum in the space provided on the Bid Proposal. Failure to do so may subject the Bidder to disqualification.

This Addendum consists of two (2) pages, AD1-1 and AD1-2, and an updated Bid Schedule (2 pages).

RESPONSES TO BIDDER QUESTIONS:

1. Plan Sheet C-1 Boring Log shows paving fabric was found at location B1. If fabric is present/found during the pulverization process, the fabric will be mixed into the cement treat section. This may result that the cement-treated section will not properly bond together. Please advise. RESPONSE: After the mixer passes by, any pieces of fabric measuring 3” by 3” and great shall be removed from the mixed material prior to proceeding with compaction.
2. The existing crown of the roadway seems to be 1 foot above the lip of gutter. This will create for a larger off haul after pulverization and the off haul will be much more than 4.5 inches. What is the final finish elevations so we would know how much to off haul? **RESPONSE:** *The intent is to not lower the crown of the road but to put back the pavement such that the new surface matches the existing surface. Therefore, the off haul amount is based on removing 4.5 inches of pulverized material from the entire roadway surface.*

4. Can you please clarify who will perform the testing on this project (the owner or contractor)? **RESPONSE:** *The Contractor will be responsible for Quality Control and the City will be responsible for the Quality Assurance, per Caltrans Section 39 Standard Process.*

5. Will the City hire a third party to conduct the tests and pay the cost? **RESPONSE:** see response to Question #3.

6. There seems to be removal and replacement of curb but there is no method of payment. Can you please let us know how this will be paid. **RESPONSE:** *There is no removal and replacement of curb in the contract, only removal and replacement of PCC Curb & Gutter (Bid Item #14) and Integral Curb Type A3 (Bid Item #15).*

**CHANGES TO PROJECT MANUAL:**

1. *Section SP-9 “MEASUREMENT AND PAYMENT”, Subsection 9-01 “BID ITEMS”, add the following:*  

   Bid Item 36 – Detectable Warning Surface 

   The contract unit price paid for “Detectable Warning Surface” shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals and for doing all the work involved in procuring and installing detectable warning surface material in curb ramps and in sidewalk areas, complete in place, as shown on the plans, as specified in the Standard Specifications and these Special Provisions, and as directed by the Engineer.

2. *Please omit the Bid Schedule provided in the Bid Proposal Documents and use the attached Bid Schedule (Clarification: updated quantities of sidewalk, curb and gutter repair (Items 13 & 14); added bid item for detectable warning surface (Item #36).*

**PLEASE SIGN THIS ADDENDUM IN THE SPACE PROVIDED BELOW AND INCLUDE THE SIGNED COPY OF THIS ADDENDUM WITH YOUR BID DOCUMENTS. NOTE THAT BID DOCUMENTS SUBMITTED WITHOUT A SIGNED**
COPY OF THIS ADDENDUM MAY BE CONSIDERED NON-RESPONSIVE AND MAY BE REJECTED.
